
Mistral-7B / L40S; 3 blocks × 50 fixed-input steps per arm/context. Medians; no confidence intervals.
SDPA: Full/Streaming. Eager feedback: adapted H2O/Snap/Tiered. SDPA prefill; common finite-check overhead included.
Tiered: GPU simulation, 1,024 hot + 2,048 cold, 32 quota; extra capacity/attention. Not native-CPU or equal-memory/SOTA timing.
